

Community workshop: GREEN SPACES AND NATURE IN COQUETDALE

We want to hear from you!

Join researchers from [Newcastle University](#) at an open workshop for Rothbury and Coquetdale this February, where we'll explore how the community uses public green spaces and grassed areas, and what can be done for pollinators and other biodiversity.

*We want to hear your views and understand what's important to **you** in green spaces.*

With the support of [Rothbury Parish Council](#), we are trialling changes to the gardening of three small grassy areas in Rothbury in spring and summer 2026. Join us for a discussion before work commences and/or tell us what you think after the summer when we follow up!

Whether you enjoy picnics, dog walking, taking in the sights, nature, or anything else, Newcastle University wants to hear from you! Join Dr Amy Proctor, Professor Darren Evans, and PhD student Tom Atkins at the Jubilee Hall to contribute to this important research.

Date: Thursday 26th February 2026

Time: Two time slots (please select one):

10am-11.30am or

6.30pm-8pm

Location: Cheviot Room, Jubilee Hall
Rothbury
NE65 7SD

What to expect:

- ✔ 90 minute workshop
- ✔ Learn about Newcastle University research on this topic
- ✔ Interactive discussions with other members of the community
- ✔ Hands-on activities
- ✔ Share your views
- ✔ Free tea and cakes

A safe space for you to share your thoughts and opinions. All views welcome.
